Imagine
your home reinvented.

ARE YOU READY FOR THE STORM?
Florida Edition – Based on ASCE7-16 code

WindCode

America’s Favorite Garage Doors®
DETERMINE YOUR WindCode® RATING
Clopay assigns a WindCode® “W” rating to our doors based on code requirements determined by wind speed in miles per hour (MPH), home exposure and home structural type.

STEP 1:
- Determine the minimum wind speed (MPH) your door must meet or exceed from the map below, or go to www.atcouncil.org/windspeed.
- Determine if wind-borne debris is applicable. See map below.

Please refer to Risk Category II when using ATC Wind Speed calculator for residential applications.

WIND-BORNE DEBRIS
The wind-borne debris region is also known as those areas that require the large missile impact rated windows. In Florida, being farther south and closer to the shoreline, it is more likely a home or building will be in the wind-borne debris region.

HIGH VELOCITY HURRICANE ZONE (HVHZ)
Miami-Dade and Broward Counties require all garage doors meet the large missile impact rating, regardless if the garage door has windows or not. Standard windows are not available in Miami-Dade and Broward Counties.

Insurance companies sometimes give discounts for garage doors and other exterior building products that exceed the local building code, including meeting wind-borne debris requirements not mandated. This means that installing a new garage door with the large missile impact rating may reduce your insurance premiums. Please check with your insurance agent for details.

STEP 2:
- Determine if wind-borne debris is applicable. See map below.

WIND-BORNE DEBRIS REGIONS:
- Designated areas where the basic wind speed is 140 MPH or greater.
- High Velocity Hurricane Zone (HVHZ)
- 130 MPH and within 1 mile of the coast.

STEP 3:
- Determine the structural type of your home.

STEP 4:
- Using wind speed (MPH), exposure and structural type, find your required design pressure and WindCode® “W” rating in the charts on page 3.

Note: It is important to also contact your homeowner’s insurance company. Many insurance companies may require or encourage doors that are different than required by building code.

Additional requirements may be requested by building code officials such as flood resistant construction. Typically garage doors are NOT part of this requirement. See details in DASMA TDS 184.

HELPFUL LINKS:
For Florida building code and product approvals visit: www.floridabuilding.org.
For Dade product approvals visit: www.miamidade.gov/building/product-control.asp.

For easy access to up to date drawings and evaluation reports, visit: www.clopaydoor.com/residential/windcode-residential-information/residential-windcode-calculator.
**Design Pressures**

The design wind load pressure rating of a door is expressed in PSF (pounds per square foot). The design pressure of the door must equal or exceed the design pressure for the garage door opening in which a door is to be installed. Design pressure has positive and negative values.

*Broward County is 170 MPH, Exposure C for most residential buildings. **Miami-Dade County is 175 MPH, Exposure C for most residential buildings. MPH = miles per hour. PSF = pounds per square foot.
CLOPAY’S WINDCODE® GARAGE DOORS

Clopay’s WindCode® garage doors are designed to help withstand high winds resulting from tropical storms and other strong wind-related weather events. This user-friendly system assists you in selecting the right garage door for your area and building structure.

DESIGN OPTIONS

Clopay’s WindCode® product offering has the widest range of panel styles, colors and window designs available today. Accent the design of your home while providing the protection you need against strong winds. Choose from various panel designs and Designer or Decorative windows for that extra curb appeal. Impact-resistant windows are available in many different colors and wind load levels.

DESIGNED AND TESTED TO WITHSTAND STRONG WINDS

All Clopay WindCode® doors have been designed and tested to meet various code requirements. Additional interior horizontal steel reinforcement along with increased hardware and springing components are installed so your door is ready when a storm hits. No posts or pins are required to secure your door if you are not there. Just lock your door.

OPTIONS AND UPGRADES

HEAVY HARDWARE UPGRADE

- Nylon ball bearing rollers for quiet, long-lasting operation
- Heavy-duty 14 gauge hinges for smooth worry-free operation

Garage doors featuring Intellicore® insulation technology represent the ultimate smart choice for homeowners. Clopay’s Intellicore® insulation is a proprietary polyurethane foam that is injected into a garage door, expanding to fill the entire structure. The result is a door with incredible strength and durability. Its dense insulation also produces a quieter door, while its industry-leading R-values (up to 20.4) provide year-round comfort and improved energy efficiency.

Look for the Intellicore® insulation technology icon throughout this brochure on select door models.
Canyon Ridge® Collection Modern Series door designs feature key elements of contemporary architecture: clean, horizontal lines with mid-century appeal, sleek window styles and aluminum accents.

**STYLE AND CONSTRUCTION**

- Plank design steel faux wood doors with 4-layer Intelicore® polyurethane insulation (R-value 20.4).
- Steel faux wood doors combined with a Metal Inlay design and 4-layer Intelicore® polyurethane insulation (R-value 18.4).
- Full-View design steel faux wood doors with 4-layer Intelicore® polyurethane insulation (R-value 6.3).
- Replaceable vinyl bottom weatherseal in a rust-resistant aluminum retainer helps seal out the elements.

*Product approval pending.*

**FINISHING AND CARE:** Proper care and maintenance are imperative for long-term performance and appearance of Canyon Ridge® Collection doors. Periodic inspection and maintenance of the composite cladding and overlays are required. Complete finishing and maintenance instructions are provided with the door and are also available from your Clopay Dealer or online at www.clopaydoor.com.

**COLOR OPTIONS**

- Composite cladding and overlays are finished in the same color. Black and Whitewash Finish available only on Mahogany composite cladding and overlays. Doors can be ordered primed for those homeowners wishing to custom paint or stain their doors. Door stain color will vary slightly within a door due to finishing process. Due to the printing process, colors may vary.

**DOOR DESIGNS**

- Custom designs available, contact Clopay for availability.

**PLANK WINDOW CONFIGURATIONS**

- Windows in All Panel Locations
  - Note: Configurations are illustrated from outside garage. When ordering, window locations are identified from inside garage looking out. Please keep in mind to avoid windows ordered in incorrect location. Additional configurations available. See your Clopay Dealer for more information.

**SPECIALTY GLASS OPTIONS**

- Windows are available insulated in clear, frosted, obscure and rain. Impact glass available in clear, bronze, matte and pebble polycarbonate.

For W6–W8 doors over 9' wide, add 2" to the door opening.

*Product approval pending.*
Canyon Ridge® Collection doors are constructed of durable, low-maintenance steel and composite, these faux wood alternatives offer the best of both worlds — the realism and beauty of a natural stained wood appearance combined with the strength and energy efficiency of insulated steel.

**STYLE AND CONSTRUCTION**

- **Limited Edition Series**, 5-layer, 2” thick Intellicore® polyurethane insulation (R-value 20.4).
- **Ultra-Grain Series**, 4-layer, 2” thick Intellicore® polyurethane insulation (R-value 18.4).
- Attractive beveled edge, clip-in grilles are removable for easy cleaning.
- Replaceable vinyl bottom weatherseal in a rust-resistant aluminum retainer helps seal out the elements.

Calculated door section R-value is in accordance with DASMA TDS-163.

Impact rated windows available.

## SPECIALTY GLASS OPTIONS

- Clear
- Frosted
- Seeded
- Obscure
- Rain
- Clear Polycarbonate
- Bronze Polycarbonate
- Matte Polycarbonate
- Pebble Polycarbonate

Windows are available insulated in clear, frosted, obscure and rain. Impact glass available in clear, bronze, matte and pebble polycarbonate.
The Coachman® Collection gives your home classic elegance while complementing your home’s architectural style.

**STYLE AND CONSTRUCTION**
- Custom composite overlay with beveled, coped edge and center groove creates a detailed carriage house look, available in four colors.
- Model CGU has 2” thick, Intellitc® polyurethane (R-value 18.4).
- Model CG has 2” thick, bonded polystyrene (R-value 9.0).
- Model CD has 1-3/8” thick, bonded polystyrene (R-value 6.5).
- Insulated with a thermal break between two layers of bonded steel.
- Coachman® Collection doors can be painted using a high-quality exterior latex paint. **IMPORTANT**: When painting your door, we require use of either a pre-approved paint or paints having a Light Reflective Value (LRV) of 38 or higher. Use of other paints will void the door’s warranty. A list of pre-approved paints can be found at [http://info.garagedoors.com/lrv](http://info.garagedoors.com/lrv).
- Coachman® Collection doors are designed to look perfect with the Coachman® Collection windows. Custom composite overlay with beveled, coped edge and center groove creates a detailed carriage house look, available in four colors.

### STEEL BASE / COMPOSITE OVERLAY COLORS
- Standard White
- Almond
- Desert Tan
- Sandtone

Overlay and base colors can be mixed to achieve desired look. Interior steel is always White. Due to the printing process, colors may vary.

### SPECIALTY GLASS OPTIONS
- Clear
- Frosted
- Seeded
- Matte
- Pebble

Windows are available single pane or insulated in clear, frosted, seeded, obscure and rain designs. Impact glass available in clear, bronze, matte and pebble polycarbonate. Additional charges for optional glass apply.

For W6—W8 doors over 9' wide, add 2" to the door opening.

For W6, Model GD4 18' wide doors are available only at 7' high.

Standard windows are not available in Texas.
Modern Steel™ Collection garage doors complement contemporary and mid-century modern home styles. Doors are available with or without windows and with or without grooves in the panels. All are available in multiple paint and Ultra-Grain® finishes to create the perfect look for your home.

STYLE AND CONSTRUCTION

- Intellicore® polyurethane or bonded polystyrene insulation with R-values ranging from 18.4 to 6.5.
- Modern Flush and Grooved panels with a textured steel surface improve appearance close-up and from the curb.
- Replaceable vinyl bottom weatherseal in a rust-resistant aluminum retainer helps seal out the elements.

*Calculated door section R-value is in accordance with DASMA TDS-163.*

### POPULAR CONTEMPORARY WINDOW CONFIGURATIONS

The windows shown below apply to Models 9208, 9209, 9138, 9139, 4308, 4309 and 4138. These doors utilize 24” and 21” section heights, allowing for the window options shown.

Contemporary window configurations are available in many design options, including windows in each section and down one side, short and long windows or windows in all sections. For doors with multiple window sections, the window locations must be the same in every section.

The images below are illustrated from outside the garage.

**Important Note:** The ordering codes listed below are from the inside of the garage looking out, as explained on the previous page. See your Clopay dealer for more details.

The illustrations shown below show window (glazed) and/or no window (solid) locations.

SOL = Solid (no window) location  
GL = Glazed (window) location

Sections are numbered from the floor up to the top of the door.

For W6-W8 doors over 9’ wide, add 2" to the door opening.

*Model 9205 is not Texas approved.*

*Model 4305 is not Florida, Dade or Texas approved.*

† Product approval pending.

**For W6-W8 doors over 9’ wide, add 2” to the door opening.**

**Standard windows are not available in Texas.**

**S** Standard Windows Available

**W** Patented Impact Windows Available

**F** Florida Approved

**D** Dade County Approved

**T** Texas Department of Insurance Approved
3-layer steel construction features Intellicore® polyurethane or bonded polystyrene insulation sandwiched between two layers of heavy-duty steel for excellent energy efficiency, strength, durability and quietest operation.

**STYLE AND CONSTRUCTION**
- 3-layer construction (steel + insulation + steel).
- Tongue-and-groove section joint and bottom weatherseal in a rust-resistant aluminum retainer help seal out the elements.
- Woodgrain embossed, insulated steel base door painted front and back for a clean appearance.
- Prepainted White end stiles and interior steel backing for a clean appearance.
- "R"-values range from 18.4 to 6.5.

*Calculated door section R-value is in accordance with DASMA TDS-163.

*Complements Clopay Entry Door glass. Additional double width door designs available. Double strength glass is standard.

SPECIALTY GLASS OPTIONS

Plain and Snap-In Series windows are available single pane or insulated in clear, frosted, obscure and rain designs.

Clear acrylic also available. Impact glass available in clear, bronze, matte and pebble polycarbonate.

Acrylic windows require special cleaning. Never use products that contain ammonia or petroleum products to clean acrylic. Please visit clopaydoor.com/acrylic for complete details.

Window heights may vary based on section height.

Impact rated windows available

(Glacier White and Mocha Brown are not available on impact windows)

ARCHITECTURAL SERIES windows are available single pane or insulated in clear, frosted, seeded, obscure and rain designs. Impact glass available in clear, bronze, matte and pebble polycarbonate.

Additional charges for optional glass apply.

For W8 – W8 doors over 9' wide, add 2" to the door opening.
Heavy-duty, 2-layer steel construction with insulation for added comfort, energy efficiency and quiet operation.

**STYLE AND CONSTRUCTION**
- 2-layer construction (steel + vinyl-backed polystyrene insulation).
- Woodgrain embossed, insulated steel base door painted front and back for a virtually maintenance-free door.
- Quality 24 or 25 gauge steel and 2” thick frame construction for durability and longevity.
- Vinyl-backed insulation for a clean interior appearance.
- Polystyrene insulation: R-value 6.3.

Calculated door section R-value is in accordance with DASMA TDS-163.

### CLASSIC™ COLLECTION

- **VALUE PLUS** series (builder grade)

**For W1, Model T52 is used. Model T52 is a tongue-and-groove, 2-layer door.**

**Impact windows are not available in Texas.**
Single-layer, non-insulated steel construction provides beauty and durability at an economical value.

**STYLE AND CONSTRUCTION**
- 1-layer construction (steel).
- Woodgrain embossed steel base door painted front and back for a virtually maintenance-free door.
- Quality 24 or 25 gauge steel and 2" thick frame construction for durability and longevity.
- Woodgrain textured short and long raised panel designs in 1-layer construction complement traditional home styles.

### PANEL OPTIONS
- Traditional Short (73, 94)
- Traditional Long (76)

### COLOR OPTIONS
- Standard White
- Almond
- Desert Tan
- Sandtone
- Chocolate

Due to the printing process, colors may vary.

Plain and Snap-In Series windows are available single pane or insulated in clear, frosted, obscure and rain designs. Clear acrylic also available. Impact glass available in clear, bronze, matte and pebble polycarbonate. Additional charges for optional glass apply.

Acrylic windows require special cleaning. Never use products that contain ammonia or petroleum products to clean acrylic. Please visit clopaydoor.com/acrylic for complete details.

Window heights may vary based on section height.

Impact rated windows available

(Glacier White and Mocha Brown are not available on impact windows.)
When budget is the deciding factor, this low maintenance, insulation-optional steel frame, carriage house style garage door combines clean lines and classic charm to provide a popular style at a great value. Accented with decorative black wrought iron hardware, these doors have the appearance of a swing-out door, but offer the convenience of modern overhead operation.

**STYLE AND CONSTRUCTION**

- Woodgrain embossed 24 gauge, 2" steel frame construction with 1/2" smooth composite overlay creates authentic carriage house styling.
- Model GH is non-insulated.
- Model GHV has 1-5/8" vinyl-backed insulation that improves energy efficiency with a 6.3 R-value.
- Available in 8 different designs.
- Window options include square, rectangular and arch windows with removable grilles. Glazing includes DSB clear or obscure glass and acrylic wrought iron designs. Unique faux window top sections are also an option.

Calculated door section R-value is in accordance with DASMA TDS-163.

For W6–W8 doors over 9’ wide, add 2” to the door opening.

*Long window availability is limited due to reinforcement requirements.
Distinguish your home with Clopay’s Reserve® Wood Collection Limited Edition Series, a line of eight polystyrene insulated wood door styles based on the most inspired (and requested) custom designs.

**STYLE AND CONSTRUCTION**
- Doors are available in 8 designs with 13 window/top section styles.
- Standard and optional decorative hardware available.
- Handcrafted, 5 or 4-layer polystyrene insulated wood door construction with a 5.9 R-value.
- 1/4” thick, imported hardwood interior backer glued to stiles and rails.
- Tongue-and-groove section joint.
- All doors can be factory primed or finish painted White. Factory stain available for stained grade wood species.

**Calculated door section R-value is in accordance with DASMA TDS-163.**

**SPECIALTY GLASS OPTIONS**

Windows are single pane and double strength 1/8” thick. Additional charges for optional glass apply.

**MATERIAL OPTIONS**

**OVERLAYS**

**BASE FACE MATERIALS**

*Extira® wood base doors cannot be stained.
**On Tongue-and-Groove (T&G) base doors, the wood species must match overlay species.

**WINDCODE® AVAILABILITY CHART**

For W6–W8 doors over 9’ wide, add 2” to the door opening.
Clean lines and simple forms let the beauty of natural wood stand out. The versatile Reserve® Wood Collection Modern Series lets you mix materials, shape and tone to create a stunning contemporary garage door that blends beautifully with other woods and materials on your exterior.

**STYLE AND CONSTRUCTION**
- Handcrafted, 4-layer polystyrene insulated wood door construction with a 5.9 R-value.
- Built with a sleek contemporary style and convenient upward-acting operation.
- Offset Window models feature a variety of short and long window options that come standard with clear tempered glass.
- Accent Strip models feature decorative flush aluminum accent strips to provide a beautiful contrast of materials. The result is a look that is modern as well as elegant.
- Heavy-duty hinges, rollers and track provide smooth, quiet, long-lasting operation.
- Replaceable vinyl bottom weatherseal in a rust-resistant aluminum retainer helps seal out the elements.
- All doors can be factory primed or finish painted White. Factory stain available for stained grade wood species.

Calculated door section R-value is in accordance with DASMA TDS-163.

**WOOD DOOR CARE**
- Proper care and maintenance are imperative to the appearance, longevity and performance of all wood doors.
- Doors must be painted or stained on all six sides prior to installation. Failure to follow the installation and maintenance instructions will void the warranty.
- Please refer to the installation and maintenance manual or go to [www.clopay.com](http://www.clopay.com) for additional information about caring for a wood door.

**Note:** Printed colors shown here may vary from actual product colors. Clopay stain colors shown on Hemlock wood. *Custom colors are available.
